RICHMOND, July 9th, 1855.

Messrs, Wst. S. Berns & Co., Genia,—Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of "Carter's Spanish Mixture," for that almost incurable disease, Scrolnia. Without being disposed or deeming it necessary to go it to the particulars of the case, I can say that the astonish-ing results that have been produced by the use of that med-icine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted and all the usual remedie who may be suffering from that dreadfal of Light.

I do not mean to say that it is adapted to all constitution or that it will afford the same relief in all cases; for, curse, I can know nothing about that-but from what have seen of the effects, I would not hesitate to use it, it any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or Respectfully yours, JON, M. BOTTS. jv21-tsept1 JON \*\* See miverlisement in another column.

Immensa Sale. It has long ceased to be fashionable to "puff" patent med i dines, or do any thing to enhance their sale; not from any particular prejudice that has arisen in the public mind against them, but simply from the worthlessness of nearly all the "great remedies" crowded into the market. But occasionally a medicine that posseses real merit is brought into light-one that is really what it purports to be. Of this class, Sloan's preparations can be ranked with safety, for we have heard of no instance where his medicines have been tried, but that the fullest satisfaction has been given, and their immense sale will fully attest their popularity.
